Annual Planning Retreat

AGENDA ITEM

Community Vision and Strategic Plan

PURPOSE

“Vision without action is just a dream, action without vision just passes the time, and vision with action can change the world.” Nelson Mandela

Establish a Community Vision and Strategic Plan. Staff will be prepared to facilitate a thought exercise designed to identify and articulate the City’s vision and key strategic directives.

BACKGROUND

The mission, vision, values statements of a City are arguably the most important leadership and guidance provided by the City’s representative elected officials. They steer the general plan and all subsequent planning/land use decisions, inform the strategic plan and all subsequent operational decisions, and instruct the budget process and all other financial decisions. City service delivery is directed by the vision of the City as established by the City Council. The annual retreat provides an opportunity to refocus and clarify the underlying desires and motivating principles held within the community.

The City established its first strategic plan in January 2020. The City’s current strategic plan is the operational action plan connecting the City’s vision to the daily operations of the City. It identifies strategic objectives, high level goals within each objective, plans and projects to accomplish those goals, and specific tasks to carry out the plans. It establishes prioritized direction to staff’s daily actions and service delivery for the citizens of the community. Directed action plans keep the City moving toward the stated vision of the City. Strategic planning also creates inherent accountability mechanisms for staff to the Council and the Council to the residents.
