**Comment or Message**

Hello, I just wanted to raise a concern with the speeding on 7375 south specially just before school starts and when school gets out. There are a lot of close calls on the corner. We nearly got into a head-on collision with people cutting the corner at 925 East I don't know if you can put signs on 925 E. or something to just help slow people down at that corner. Also, the street light on that corner has not worked for a long long time I've submitted it to the company on the website a couple of times.

I don't necessarily need it to be public comment, but I wanted to bring it to the council's attention and I'm unable to attend tonight. Thanks so much.
