# DAVIS COUNTY SUICIDE POSTVENTION

## What is Suicide Postvention?

An organized response aimed at supporting affected individuals to alleviate suffering and emotional distress, and to prevent additional trauma and contagion. Postvention includes psychological first aid, crisis intervention, safe and planned engagement with media partners, and other activities offered as an organized response after a suicide death.

### Why Suicide Postvention

- One large scale study found that people who had known someone who died by suicide in the last year were 2x more likely to have suicidal thoughts, 3x more likely to have a plan for suicide, and 3.7x more likely to have made a suicide attempt themselves.
- The risk of suicide was 3x higher in suicide survivors than in bereaved families with non-suicide death.

### Benefits of Coordinated Postvention

- Facilitate healing of individuals & the community
- Prevent additional suicides and negative outcomes
- Coordinate support and resources among partners

The **Davis County Suicide Postvention Workgroup** was formed in 2023 to address the gaps in coordinated support for the community and individuals affected by a suicide death. The workgroup includes a variety of community partners that meet to increase collaboration, align resources, and create a community suicide postvention plan. Meetings take place quarterly.

## Davis County Suicide Postvention Plan

## Grief and Loss Resources Website

[daviscountyutah.gov/health/grief-and-loss](https://daviscountyutah.gov/health/grief-and-loss)

## Survivor Connection Card

A survivor connection card is distributed through multiple avenues such as on-scene by investigators, through funeral homes, hospitals, schools, faith leaders, workgroup members, etc. The card lists a contact number to call for support and connection to resources. It also includes a QR code and link the grief and loss website.

# Postvention Plan Overview

## Plan Goals:

- Have a prepared, organized response that can be quickly activated when a suicide death has occurred.
- Prevent further suicide deaths and reduce the likelihood of suicide contagion.

## Plan Overview:

1. Identifies response team, workgroup, and other supports
2. Defines responsibilities to support individuals and the community after a suicide death
  - a. initiated by death notification (OME, obituary, etc.)
  - b. response team is activated as applicable
    - i. response coordinators review information & send to response team
    - ii. first responders and anyone connected to survivors share connection card
    - iii. DBH responds to calls from survivors or first responders
    - iv. DSD looks for connections to school
    - v. PIO monitors and responds to media
    - vi. Anyone with a connection shares connection card & resources
3. resources ready for immediate dissemination and use
4. Outlines communication, privacy practices, evaluation strategies, and self-care guidelines

## What can you do?

- Review this plan and the website to become familiar with resources available
- Share this plan and resources with others
- Work with your organization to create an postvention or unexpected death response plan
- Learn more about grief literacy in order to support those who are grieving. Learn more from Caring Connections at [nursing.utah.edu/grief-literacy-compassionate-communities](https://nursing.utah.edu/grief-literacy-compassionate-communities)
- Practice Safe Messaging (see below)

## Tips for Talking About Suicide Safely

CONSIDER SAYING	INSTEAD OF	WHY
<b>Attempted suicide</b>	Failed or unsuccessful suicide	To avoid presenting suicide as a desired outcome or insinuating the person is a failure
<b>Died by suicide/took their own life</b>	Committed suicide	To avoid association between suicide and 'crime' or 'sin' that may reinforce stigma
<b>&lt;Name&gt; is thinking of suicide/has experienced suicidal thoughts</b>	<name> is suicidal	To avoid defining someone by their experience with suicide; they are more than those suicidal thoughts
<b>Person experiencing/living with a mental illness</b>	Suffering from mental illness or emotionally disturbed	People who experience mental health conditions can and do live healthy, fulfilling lives. Suffering implies one is unhappy or can't recover.

**If changing our language can help people feel safer asking for help, then changing language can save lives.**

Inside Top

Dear Neighbor,

We are deeply sorry for your loss. May you find moments of strength, peace, and comfort in the coming days. Your community grieves with you.

As help and healing are core values in our community, we want you to know that a variety of grief support and other resources are available for you and your loved ones. If you would like help accessing these resources, you are welcome to call 801-336-1749 to talk to a member of our loss survivor support team. There is also a QR code on the back of this card that links you to a webpage with information on services and supports.

We acknowledge that grieving and healing happen in their own time. Feel free to reach out when or if you would like support.

Sincerely,

The Davis County Loss Survivor Support Team
