Speed limit on 7375 south

---

**Comment or Message**

Can you please discuss the speed limit on 7375 south? It is not marked so it's probably 25 miles an hour. People go faster than that and even if they're not speeding once you get to the corner on 925 E. depending on the size of the vehicle you need to be going 15 miles an hour or less. If both vehicles are large, one of them has to stop to let the other one by. When school is starting and ending there are children on the road, dump trucks on the road, and people speeding to and from school. Please consider posting speed limit signs. Please consider reducing the speed to 20 miles an hour until a sidewalk is put in. There is no way to even push a stroller and go for a walk currently because of the amount of dump truck trucks and vehicles on the road. No where to push a stroller or wheelchair. And possibly add a sharp curve sign by 925 E. And 7375 S.

Thank you
