Mayor's Corner

Wow, what a winter we are having! Thank you to all the great neighbors who continue to help those who have a difficult time removing snow from their driveways and sidewalks; our residents are considerate of others and willing to help.

We are moving forward with filling the City Council vacancy, there will be a special meeting held on February 7, 2017 for the interviewing of all applicants. This is an open public meeting.

Finally, please drive slow and with caution on the snow covered and icy roads.

-Mayor Tammy Long

City Manager's Minute

The South Weber City Administration would like to express their gratitude and appreciation to Marlene Poore for her three years of service on the South Weber City Council. It has been our pleasure to work with you.

The City held their annual retreat last month to discuss assessments to the City's general plan, the capital projects to be completed for 2017-2018 fiscal year, and economic development; with the east side of the City being the greatest potential to attract business due to its location, infrastructure, zoning, and access. The council, with the assistance of the Planning Commission, and members of the community in attendance, devised a strategic plan to attract more business into the City.

In the special meeting, to be held on February 7th, the Council will also be discussing proposed solutions to the west side of the 6650 South road.

On February 8th, the City will be hosting an open house for the 1250 East road project. The open house will be held from 6:00 - 7:00 pm at the City Offices.

-Tom Smith

Special City Council Meeting to be held on FEBRUARY 7, 2017 at 5:00 P.M.

CODE ENFORCEMENT NOTES

Please do not push snow back into the roadways; if you're plowing it is not lawful to make walls that are in the roadway. Severe damage can happen to the plows and the trucks after the wall becomes a block of ice.

As many of you have heard, several warnings and citations have been issued to those that have not cleared your walkways. For the safety of our pedestrian traffic, please clear your walks whether you're in a residential, industrial, or commercial area, all must be cleared. We understand the depth of the snow and that the snow piles are becoming very large, but it is still imperative that the roadways are clear for the emergency travel of our police and fire departments. Please travel at a very safe speed when approaching intersections or corners that may have snow buildup on the side of the road.

Thank you,
Chris Tremea

FROM OUR FIRE DEPARTMENT

We would like to thank all of those that have supported our fire department and we are honored to provide service to you. It has been amazing to see the fire hydrants cleared around the city and we thank you for helping your neighbors and fellow citizens. We have tried to clear out several a day as a fire department, however there is no way that we could do all of them without your help. Please, keep up the good work!

This time of year, we always get several calls from C/O Detector Alarms activating. This could be from a malfunction or an actual alarm and we would strongly encourage you to not hesitate in calling us. It is always better to error on the side of caution when it comes to the silent killer of Carbon Monoxide.
