INSTALLATION PROJECT CONTRACT

WHEREAS, new state and Division of Drinking Water rules (UC 19-4-14 and Admin R309-510) require system specific source and storage sizing requirements for public water systems; and

WHEREAS, the sizing requirements will be based on water use data collected and reported to the Division of Water Rights; and

WHEREAS, system meters must be installed at key locations within the water system to gain that information; and

WHEREAS, five bids were received with low bid by AAA Excavation of Willard; however, based on references from other cities there is concern that additional oversight would be required increasing the project's total costs; and
